Transite Technology Wins Award as One of Inbound Logistics Top 100 Logistics IT Providers for 2011

Transite selected for new product innovation, flexibility in meeting market needs.

RALEIGH, NC—May 17, 2011—[Transite Technology](http://www.transite.com), a leading provider of transportation management solutions, software, and services, has been named an Inbound Logistics Top 100 Logistics IT Provider for 2011. This marks the second consecutive year Transite has been tapped for this award.

“Increasing operational complexity caused by shifts to demand-driven logistics practices, increased collaboration, and continuing globalization, mean greater challenges for those seeking to match demand to supply,” said Felecia Stratton, Editor of Inbound Logistics. “It’s impressive to see Transite providing the flexibility and solutions that forward-thinking enterprises need to face supply chain challenges in 2011. For that reason, Inbound Logistics editors have recognized Transite as one 2011’s Top 100 Logistics Information Technology solutions providers.”

Transite recently introduced its new Jaguar Transportation Management System--an industry-unique transportation management technology for carriers, 3PLs and shippers. Jaguar TMS is highly flexible, cost-effective and can be purchased either as purchase/install or SaaS.

“Our goal is to develop and deliver customer-driven products that are the best solutions on the transportation management market,” said Les Hamashima, chief operating officer for Transite. “Superior technology combined with excellent customer support enable us to do very well a highly competitive market.”

Every April, Inbound Logistics editors recognize 100 logistics IT companies that support and enable logistics excellence. Drawn from a pool of more than 300 companies, using questionnaires, personal interviews, and other research, Inbound Logistics selects the Top 100 Logistics IT Providers who are leading the way in 2011. Editors seek to match readers' fast-changing needs to the capabilities of those companies selected. All companies selected reflect leadership by answering Inbound Logistics readers' needs for scalability, simplicity, fast ROI, and ease of implementation.

About Inbound Logistics

Inbound Logistics is the pioneering publication of demand-driven logistics practices, also known as supply chain management. IL’s educational mission is to guide businesses to efficiently manage logistics, reduce and speed inventory, and neutralize transportation cost increases by aligning supply to demand and adjusting enterprise functions to support that paradigm shift. More information about demand-driven logistics practices is available at www.inboundlogistics.com

About Transite Technology

Transportation Management Solutions

Since 2002, Transite's solutions, technologies and services have enabled America's best run 3PLs, brokers, shippers and carriers to streamline processes and increase profits. Transite allows these parties to automate and manage LTL, TL, small package, ocean, and air shipments. The company's products range from complete solutions to technologies used by other TMS and ERP vendors to provide best-of-breed functionality. Transite's solutions are hosted or purchased, flexible, quick to implement, and cost-effective. www.transite.com
