FOR IMMEDIATE RELEASE

**TRANSITE'S JAGUAR SOLUTION CHOSEN BY TRANZPROZ CONSULTING AS COMPANY'S FIRST
TRANSPORTATION MANAGEMENT PLATFORM**

RALEIGH, NC, September 28, 2011—Transite's JaguarTMS solution has been as the strategic and functional transportation management system platform for TranzProz Consulting, a recently formed third-party logistics company that will focus on working with shippers across the U.S.

"As a fresh, forward-looking 3PL, we were looking for TMS technology that had the flexibility to meet our needs as we grow," said Danny McPherson, CEO and cofounder of TranzProz. "Choosing Transite is our most important technology decision as we cannot have the business direction of TranzProz stunted by our technology platform."

TranzProz was founded by Danny McPherson and Tim Davis. The founders, most recently executives from Estes Express Lines, have more than a combined 40 years of transportation management experience within the LTL industry.

McPherson said that one of the core principles of TranzProz is to offer clients industry-leading technology that delivers unmatched accuracy and rating.

"The strategic and flexible nature of our Jaguar transportation management system is demonstrated by TranzProz's decision to select our solution," Transite CEO Geoff Comrie said. "Our Jaguar TMS is architected as a superior 3PL solution because it can integrate across the different needs of a 3PL's broad customer base, and it's both cost-effective and quick to implement for a fast return on investment."

About Transite Technology

Since 2002 Transite's solutions, technologies and services have enabled America's best run 3PLs, brokers, shippers and carriers to streamline processes and increase profits. Transite allows these parties to automate and manage LTL, TL, small package, ocean and air shipments. The company's products range from complete solutions to technologies used by other TMS and ERP vendors to provide best-of-breed functionality. Transite's solutions are hosted or purchased, flexible, quick to implement and cost effective. For more information about Transite, visit www.transite.com.
